### DIXON WINS.

He Is Still Champion Bantam Weight of the World,

IT WAS SHORT BUT SWEET

Skelly Put to Sleep After Eight Rattling Red Hot Rounds Full of Fight.

The Brooklyn Warrior Very Plucky, but Ontclassed-Call of Time Saves Bim from Defeat in the Fourth Round-Repeatedly Sent to Grass-The Second of the Great Battles.

NEW ORLEANS, Sept. 7.- George Dixon, the champion bantam weight pugilist, and Jack Skelly, of Brooklyn. were greated by more than 5,000 persons at the Olympic club last night. There were about 400 negroes present. The fight was for the championship and \$12,-500 and was easily won by Dixon.

Skelly's seconds were Joe Choynski and Jimmy Carroll, while Jack Mc-

Auliffe held the bottle. Dixon's hand lers were Tom O'Rourke, Jack Haylin, of Boston, and Jimmy Dougherty, also of Boston. Professor Duffy was referee as usual. Following is the fight by

The Fight in Detail.

First round—The men had no sooner been called to the center than Skelly let go his left for Dixon's head. The colored chap dodged cleverly and smashed skelly on the face with the left. The poys then hit each other lightly on the face with lefts, and each man made a pretty play at stopping the rights. Dixon kept away after this and then made a rush and clinch. Skelly looked

confident and the crowd yelled. Second round—Skelly, who stood two inches over the colored man, again took the initiative, but missed with the left. and then Dixon got in two left-handers on the body. Another left of Dixon's caught Skelly hard in the stomach. Dixon made two rushes, landed his left in each on the stomach. Skelly missed a right hand swing for the jaw in the

Third round-Skelly came up more wary in this round, but was promptly knocked down by a left-hander on the ar, and the colored population howled. Dixon got in three lefts on the stomach and missed two swings for the head. Skelly was slow as you please and could not land three cracks he made.

Made for Skelly's Stomach.

Fourth round-Skelly was scary and let Dixon clinch him until the colored man caught his left on Skelly's ribs. Skelly now made a rush and Dixon slipped, but on recovering before Skelly had time to recovering before skelly had time to recover, Dixon turned around and slapped Skelly hard on the face with the left. Dixon went in with the old left and landed three lefts on the stomach. Skelly seemed dead and went to his corner in the way of a groggy man.
Fifth round—Skelly came out looking

strong enough, but made a weak at-tempt with his left to catch Dixon's In a clinch Dixon landed left under the right arm and then smashed him in the face with the right. "Mahogany" now hit left and right on the eye and nose and Skelly's face was bloody from the eyes down. Skelly was quite tired but he stood the gaff. Sixth round-Skelly forced Dixon over to his corner, but could not land a blow. Dixon hit him with left twice under the right arm, once on the nose, making more blood flow, and again the left under the right arm. Dixon rushed

with the evident intention of finishing his man and landed left and right on the face. He repeated this twice and Skelly could not make a return of the weakest kind. Dixon Floors Skelly.

Seventh round-Dixon led left for face and Skelly stopped it nicely. Dixon got in a stiff right-hander on the stomach and again on the face, once more on the neck and for the fourth time on the body under the right arm. All the blows were hard. Then Dixon went at him with both hands and hit him all over the ring. One left-hander on the jaw floored Skelly, who was bleeding

freely.

Eighth round—Skelly came up groggy again. Dixon was as fresh as a daisy. It looked as though the end of the fight was near and the crowd began to leave the building. Dixon rushed and smashed Skelly all over the ring. At close quarters Dixon hit him with the right on the jaw and the crowd yelled "foul." But there was no foul, as each had an armful. Skelly went down unhad an armful. Skelly went down under the force of the crack, but get up blocdy but plucky. Dixon ran at him again and thumped with right and left on the ropes. Skelly was so awfully played out that he went down again on his knees. He fell over on his face and made an effort to get up, but it was no use, and he was counted out. The poor boy had not been a half-sized competitor for the colored champion. The Brooklynite meant well enough, and showed good heart, but unfortunately he does not know how to fight a good man. Dixon was pretty well applauded when the decision was given.

Our Public Behools

Are the main-stay of our republic. In them are being cultivated the minds which are to be our future lawmakers which are to be our future lawmakers and leaders in every walk in life. How essential it is that these minds should be united to strong, healthy bodies. So many children suffer from impurities and poisons in the blood that it is a wonder that they ever grow up to be men and women. Many parents cannot find words strong enough to express their gratitude to Hood's Sarsaparilla for its good effect upon their children. Scrofula, salt rheum and other diseases of the blood are effectually and permanently cured by this excellent medicine, and the whole being is given strength to resist attacks of disease.

JIM CORBETT CHAMPION Of the World-He Puts Sullivan

to Sleep in 21 Rounds. NEW ORLEANS, Sept. 8,-[Special.]-James J. Corbett is now the champion of the world, having knocked out John L. Sullivan in twenty-one rounds last night. No marks were perceptible on the body of the new champion, while the old one resembled a piece of liver. The outcome of this meeting of the heavy-weight gladiators was a great surprise to many, and thousands of dollars channed hands on the result. This will likely put an end to Sullivan's fighting.

PATTISON'S PROCLAMATION. Good Advice How to Fight the Cholera

Plague. HARRISBURO, Sept. 6.-Governor Pat-

tison has issued a proclamation touching the subject of cholera, in which he

"I recommend to all anthorities charged by law with the protection of the health and lives of their respective communities, whether boards or burcaus of health, health officers, health commissioner, borough councils, the utmost promptness and energy in placing their towns in a state of sanitary defense, in accordance with the instructions of the State Board of Health, and to the citizens of such towns that they not only yield cheerful obedience to the orders of such authorities, but lend their active aid in enforcing the same.

"To the residents of villages and townships which are provided by law with health authorities, that they voluntarily unite in appointing sanitary committees, composed of the most influential and intelligent members of the community, charged with the duty of making instructions, removing accumulations of filth, providing depots of dis-infectants and in all other known ways

promoting sanitary conditions.
"To physiciaus and others concerned in attendance on the sick that they at once report any suspicious case of which they have knowledge to the local authorities or to the board of health, without attempt at concealment, which is the surest means of spreading con tagion; and to all transportation com-panies that they at once comply with the instructions of the State Board of

BLAINE ON THE CHOLERA.

The President Has the Right to Proclain All Traffic Suspended.

BANGOR, Me., Sept. 6 .- Mr. Blaine has recently expressed to a friend his views on the clear duty of the government in the matter of the cholera danger-what the president and congress should at once undertake. In substance it is to close traffic between the old country, Canada and the United States, to every body and everything save the mails and citizens of this country now abroad, and to admit these only after perfect precau-

He wanted everything now on the water on the way from the Old World kept from the land, and a discontinuance of all foreign railroad traffic across the states. Then he would have the border policed to perfection, a rigid examina-tion in all cities and towns of fruit, and he believes Harrison has the power to so order by proclamation, and that there are no treaty rights to prevent it.

Mr. Damrosch somewhat startled Mr. Blaine by telling him that he rode Saturday night from New York to Boston with two persons that had just left one of the ships on which death from cholera had occurred. had occurred.

IT IS THE ASIATIC PLAGUE.

The Bacteriologist at New York Has So Decided.

NEW YORK, Sept. 6 .- Dr. Byron, the bacteriologist, who has been making the cholera cultures for Dr. Jenkins, went into voluntary exile Sunday at Swineburn Island, where he will remain until the cholera epidemic is over. He thinks the "scare" will not last longer than five

"I have only examined one case," said, "and that was five hours old, but from what I found I feel morally confident that the disease is Asiatic cholera.

San Francisco Still Open.

Washington, Sept. 6.—Acting Secretary Spaulding has directed the collectors of customs at San Francisco to allow the steamer Panama and all other vessels from Panama via San Diego to be entered after passing quarantine, in the absence of information that cholera is prevailing at those ports. Mr. Spaulding has also notified the collector at Boston that vessels of the International Steamship company from infected Cana dian ports are exempted from the 20 days' quarantine circular, and if they pass quarantine may be allowed to enter

Ohio Will Do Her Duty. WASHINGTON, Sept. 6.—The secretary of the Ohio State Board of Health has telegraphed the treasury department that the State Board of Health will arrange to inspect the lake borders and all trains for Ohio should cholera appear in

Escaped from the Pen.

this continent.

COLUMBUS, O., Sept. 6.—Henry Welch a Shelby county convict in the peniten-tiary, who last year received a six-year sentence, escaped this morning just be-fore daylight, and up to noon had not been recaptured. Jim Bell, a notorious burglar, escaped this morning from the county jail by a dumb elevator.

Thrown from His Wagon NEW CUMBERLAND, W. VA., Sept. 6 .-Absalom Baxter, one of the wealthiest farmers of this county, was thrown from his wagon and almost while returning from Hookstown, Pa., last night. Mr. Baxter was a leading

politician, farmer and oil speculator. PITH OF THE NEWS.

Annie Smeltz, of Columbus, O., while starting a fire with coal oil, was fatally burned by the explosion. All her clothes were burned off.

The telegraphers' convention at Kansas City, which was expected to do wonder in the formation of a new union to com-prise all the old brotherhoods, etc., seems to have fizzled out.

A system of robbery has been discov ered in cases of drygoods destined to our merchants over the Chesapeake and Ohio railroad. Cases of clothing have been deftly opened in several instances and many articles have checked up short on the involces.

William Everhart, a tough character of Bellefontaine, was shot by Wilson Burris and instantly killed at a country at the residence of Burris, on the banks of the Lewiston reservoir. Sheriff Roach arrested Burris, and Marion Cooper as an accomplice, and put them in jail here. Burris claims the shooting was accidental.

Word has been received at Pittsburg of the death of William Thaw, Jr., of that city, at Cologne, Germany, yesterday, of lung trouble. The deceased leaves a widow and two children and a fortune of several million dollars. He was the oldest son of the late William Thaw, vice president and director of the Pennsylva- win in ten rounds.

A DEAD LINE. THIS ROOSTER CROWS

City Yet. New York, Sept. 7.—The situation today, while scarcely changed as to the battle with the scourge, is materially Vermont. altered, in that the sanitary conditions of the floating cities, as each of the ships may be called, promise to be a problem far in excess of the actual pestilence it-

self. The facts of deaths and the new

cases from day to day is a matter of

runs its course. The sanitary conditions on the detained ships for both cabin and steerage passengers is one that calls for the most careful thought on the part of Dr. Jenkins and the city and state health authorities, who are giving him the most complete support.

The necessity for the detention of so large a number of people within such circumscribed limits for the period indicated in his reply expressing intention to comply with the full terms of the treasury circular, drawn at the suggestion of the president, is praiseworthy in its recognition of the supreme interest and watchful care of the national executive, but its results to the souls thus detained cannot be estimated.

From a marine point of view another danger threatens, the pilots bringing in the detained vessels being as securely quarantined as the voyagers themselves It is scarcely to be doubted that as soon as the health officer finds that the New York pilot commissioners have their available men locked up in the detained ships he will see to it that the treasury department makes a special rule ex-empting from quarantine regulations the pilots, or there will be none of them off shore to bring in the incoming ships with a knowledge of his wishes and the crowded roadstead at the boarding station. If this action is not taken it is easy to be seen that the Narrows will soon be chocked and local commerce, as well as that from across the water, be barred from passage.

The Hamburg-American company, at present the principal sufferers from the plague-infested ports, has a number of schemes for the amelioration of the un-fortunate passengers in its charge, and Dr. Jenkins is now giving several of these consideration. The particular scheme to be adopted is yet to be de-cided upon between the health officer and Agent Cortis. The situation on the detained ships is

similar as to conditions among the pas-sengers in good health, whether confined on board at the upper station or in the infected roadstead south of the hospital

islands, in the lower bay,
It had originally been Dr. Jenkins' inention, should no cases of sickness develop, to release La Bourgogne Thurs-day night, Sept. 8, and he has not yet acquiescence with the treasury circular. whether he will detain the French liner beyond his original intention or not. In view of his concerted action with the president it is probable that all ships having immigrants from infected ports. which, to an extent, may be said to include the British Isles, will be detained for the full twenty days unless earlier relief upon special investigation by representatives of the treasury department.

Noted People Held Prisoners. NEW YORK, Sept. 7 .- At the offices of the different steamship companies reference was made to possible federal quarantine after vessels had been released by Dr. Jenkins, and it was said that positive assurances had been given that the ves-sels would not be held an hour longer than necessary. The agents generally agreed that they do not want ships released while there is a chance of the plague breaking out aboard. The advance passenger lists of the City of New York shows that besides the wife of Secretary Foster there are on board Chauncey M. Depew, Digby Bell and Laura Joyce Bell, General C. B. Comstock, Harry C. Duval, Hon. Albert C. Coxe, Senator Hobert and wife and the bur lesque actress Topsey Venn.

A Cabin Passenger Attacked.

LONDON, Sept. 7.—The steamer Oldham, from Hamburg, has been quarantined at Grimsby, a cabin passenger on the vessel having been found suffering from cholera. The steamer's cargo of fish has been destroyed. The company owning the steamer have concluded to book no more passengers of any class from Hamburg. A dispatch from Malta states that all vessels from ports of the United Kingdom will be subjected to a medical inspection before they are allowed free entrance.

The Plague Still Bridled.

WASHINGTON, Sept. 7 .- Not a single case of cholera exists today within the boundaries of the United States as far as government officials at Washington are advised, and if our efforts avail, said Acting Secretary Spaulding, not a case will occur in our borders. Every possi-ble effort is being put forth and every suggestion receives at least respectful

Hamburg's Awful Death Eate. HAMBURG, Sept. 7.-The official report states that 674 new cases and 264 deaths from cholera have been reported since noon yesterday, and that since the outbreak of the disease there have been 6,798 cases and 2,940 deaths.

They Call It Cholerine.

THE HAGUE, Sept. 7.—A workmen has died from cholerine at Dordrecht. a a town of South Hollaud ten miles from Rotterdam. This is the first case at Dordrecht, otherwise known as Dort.

M'KINLEY ON THE ROAD.

He Says a Word for Labor Crusher Morgan and Against Dr. Ikirt."
Youngstown, O., Sept. 7.—[Special.]—
Gov. McKinley passed through today enroute to Columbus. When asked what he

thought of Dr. Ikirt, Democratic nomines for Congress, he said: "He is a very nice man, but a weak candidate, and Temo-crats have no show to beat Morgan with him.

Betting That John L. Will Win in Ten

Cholera Hasn't Gotten Into New York For Big Democratic Gains In

Democratic Gains and Victory in Arkansas,

Against Both Republican and

These Elections Clearly Indicate the Election of Cleveland.

The Democrats are Greatly Encourage Over the Outlook.

It Looks More and More Like Grover. NEW YORK, Sept. 7 .- [Special.]-The Democratic Executive Committee claim to see bright hopes for the Democracy in the elections in Arkaneas and Vermont.

The Arkansas election settles the question that the fusion of the Republican and Peoples party cannot break the solid South, and the election in Vermont indidicates that every New England state is doubtful except Vermontand Maine. The election in Vermont is very discouraging to the Republicans, There is evidently, from the returns a hand, at falling off in the Republican majority of over 9,000. The total vote of the state in 1888 for President was only 64,476, and a loss of 9,000 Presidential year is a serious loss. This per cent. of loss will

lose Massachusetts, Rhode Island and New Hampshire to Harrison, Harrison had only 2,369 in New Hampshire in 1888. on a total vote of 90,000. The same proportion of loss in New Hampshire makes that state sure for Cleveland in November Dispatches from Vermont state that while the Democratic [farmers turned out and voted, the Republican farmers have failed to poll their vote. This, after the Republican National Committee made a big effort to hold up the majority in that with other speakers of National note and shipping them into Vermont for a series of public speeches.

John G. Whittier, the Poet, Dead. HAMPTON FALLS, N. H. Sept. 7,-[Special.]-John, G. Whittier, the poet, died early this morning. He was 85 years of

Whittier died the oldest and best beloved of all our Ameridan poets. He was born of Quaker parentage, at Haverbill, Mass., Dec. 17, 1807 had only a common school education and spent his boyhood on his father's farm. When 18 years old he commenced to write verses for a local paper, the Haverbill Gazette, this was while he was learning the trade of shoes maker. In 1829, when 22 years old he became the editor of the American Manufacturer, a Boston newspaper, succeeding the poet Geo. D. Prentice who went to Louisville, Ky., to write the life of Henry Clay. 1n 1835 Whittier went into politics and was elected a member of the Massachusetta legislature. In 1839 he removed to Pennsylvania and become the editor of an Abolition paper called the Pennsylvania Freeman. After his office was destroyed by a mob, and its contents sacked he returned to Amesbury, Mass. He has published numerous volumns of poetry and has been a generous contributor to newspapers, and was among the most promi-nent of American authors. He has pub nent of American authors. He has pub-lished eight books of prose. He never
